G & S EXPEDITED FREIGHT LTD  
5105 W WINONA STREET  
CHICAGO IL 60630

This will advise that on this date, Kentucky Highway Use (KYU) license number 215049 has been issued to you pursuant to your application. In addition to obtaining this license, other qualification and licensing requirements (license plate registration, fuel tax license, operating authority, etc.) must be met before you may lawfully operate in Kentucky. Future request for additions or deletions of any vehicles licensed for 60,000 pounds or greater, under your KYU number, must be submitted on form TC95-38 and forwarded to the address listed above or submitted electronically through our website located at <http://transportation.ky.gov/motorcarriers/>. You will also receive tax reports and return envelopes for each of the remaining quarters of this year. You will receive four reports each year at the end of March to complete and return as each quarter is due. Kentucky law requires that each KYU licensee file a tax return for each quarter even if you do not travel on Kentucky highways during a quarter. If you have no miles to report, you should file the return stating "No Operations". There are no exceptions to the requirements of filing a quarterly tax return. Failure to file a tax return will result in cancellation of your license. Cancellation of your license will require payment of additional penalties up to \$500, and posting of a bond prior to reinstatement. Operating under a canceled license will result in citations and impoundment of the vehicle involved.
